

Beautiful Solutions

Shercom Industries produces 100% recycled rubber landscaping edging that is proven both strong and flexible. It is durable in all weather while maintaining its flexibility. It is easy to install, long-lasting and it is essentially maintenance free.

Shercom remains committed to combining sustainable environmental solutions with consumer landscaping needs.

Features

- flexible and easy to trim for multiple shapes
- L-shape design allows for the use of a lawnmower along the base, eliminating the need for edge trimming
- extremely lightweight and highly durable
- makes a great edging for rubber pavers or mulch
- available in black, brown and red (all are colorfast)

Installation & Maintenance

- No digging is required
- Comes with plastic spikes and connection dowels
- Easy installation

Available in Black, Brown and Red • 48" wide x 3" x 3" • 7 lbs
