

Rubber Nugget Mulch

Made from 100% Recycled Tires

Available in:

Black

Brown

Red

Grey

All of the beauty - none of the work.

Nugget mulch mimics the look of wood mulch but is more durable, lasts longer, won't rot or compact. It is an eco-friendly alternative as each bag of mulch recycles 2 scrap tires and it allows for a reduction in chemical use as it inhibits weed growth. It is non-toxic and non-flammable making it a natural choice for a sustainable future.

All Shercom products are non-toxic and non-flammable making them safe and eco-friendly for any outdoor space.

Features

- 10 year color guarantee - no need to replace yearly
- will not rot - lasts for decades
- deters insects, rodents and cats
- resists mold, mildew & fungi • inhibits weed growth
- reduces chemical use • non-toxic, non-flammable

Rubber nugget mulch creates a distinct look for any garden or landscape project.
